I could talk to Mr. Mgmt and get things moving quickly. They fired a woman who was pregnant for 4 months instead of trying to find another appointment with her. Approval to do so will take another 6 weeks. Learn more about salaries and benefits at Aequor Technologies. Data entry and document control.ConsContract terminated, had to go back to retailBe the first to find this useful reviewReport Flag as InadequateCompensation and BenefitsCurrent employee, 1+ year oldJul 23, 2020 à Contractor in Minneapolis, MNProsThey moved quickly after contacting me about the position. ConsThey are bad at communication.1 person found this review helpfulReport Flag as InadequateCompensation and BenefitsCurrent Employee, more than 1 yearSep 11, 2014 àâTMPPharmacy Consultant ConsOffice is dirty and dirty and immediately you can see the employees are treated as if they are working in a third world country. Nothing else I can think of inCons-Health Insurance is expensive and not great coverage -Have to work there for a year to be eligible for 401k, even if they don't correspond to anything. They will look you in the eye and tell you that they are not making any profit with you, while the customer shows you proof that they are billing them almost double the rate that they are giving you. I feel that the company cares about the employees and their small gestures that count. People respect each other and are always ready to help each other.I've always known cons in every company, but I would be underestimating the positivity and potential of this organization if I started to highlight any of them as they can be taken out of context2 people found this review helpfulReport Flag as In appropriateCompensation and BenefitsCurrent Employee, more than 8 yearsJan 23, 2015 - Project Manager inscaturday.
